Cell Culture & Analysis

Essentials

Market leading suppliers have teamed up to offer you complete packages and special promotions for PCR, qPCR, nucleic acid and protein purification, western blotting and cell culture, as well as lab essentials. Save time and money on your most important and trusted life sciences products — browse our promotional offers at eu.fishersci.com/go/lifesciencepromotion to take advantage of these significant savings opportunities.

Enter promotion code 13319 to access the promotional prices.

Molecular Biology

FastPrep™-24 Instrument

Lyse any tough or frozen sample in 40 seconds.

- Homogenises resistant samples with ease
- Delivers high reproducibility due to precise setting of lysis time and speed
- Eliminates cross contamination with single use matrix tubes
- Lyse efficiently:
 - Bone, brain, tumours
 - Bacteria Gram + or –
 - Yeast, fungi, spores
 - Seeds, roots
 - Faeces, soil

Cat. No	Description	List Price	Promo Price
12079310	FastPrep™-24 instrument with QuickPrep™ 24 x 2mL adapter	8388,00	7381,44

thermo scientific

Savant™ SpeedVac™ DNA 130 Integrated Vacuum Concentrator System

Save time and money with Thermo Scientific™ Savant™ DNA SpeedVac™ Concentrator Kits. Everything you need for quick drying and concentrating of small sample volumes

Cat. No	Temperature Range	Dimensions (L x W x H)	Capacity	Max. Vacuum	List Price	Promo Price
15819206	Ambient (17–32°C) to 65°C	29x64x31cm	Accommodates 36 x 1.5ml tubes, 72 x 0.5ml tubes and 2 x microwell plates.	<10Torr (13mbar, 1.3kPa)	6375,00	5737,50

PCRmax Alpha Cyclers 1 PCR Machine

- Active sample cooling for sharper amplification and minimal non-specific amplification
- Program wizard allows you to generate a protocol specific to your primer sequence, template source and amplicon length in seconds
- 'Alpha Track' app and QRR reporting track the progress of any PCR run and the health of the system remotely
- Gradient capability allows for simplified temperature optimisation, no matter the block chosen
- USB connectivity and login: login to the system and have any unit load your defaults simply by inserting your USB drive
- Android-driven tablet interface: Quad core speed and excellent connectivity and feel; chosen for sensitivity and responsiveness, even through gloves

Cat. No	Description	Capacity	List Price	Promo Price
15549952	Alpha Cyclers 1 PCR Machine	96 wells	4565,00	3818,85
15539952	Alpha Cyclers 1 PCR Machine	384 wells	4565,00	3880,25

PCRmax™ Alpha Cyclers 2 PCR Machine

The Alpha Cyclers 2 (AC-2) dual independent block system allows multiple users to run different protocols simultaneously without needing multiple units. Ideal for multi-user environments or upscaling throughput.

- Large and sensitive HD touch screen: works through gloved hand.
- Active sample cooling for sharper amplification and minimal non-specific amplification
- Program wizard allows you to generate a protocol specific to your primer sequence, template source and amplicon length in seconds
- Alpha Track app and QRR Reporting – track the progress of any PCR run and the health of the system remotely
- Gradient capability allows for simplified temperature optimisation, no matter the block chosen
- 96 and 384 well block formats offer flexibility for any scale and user needs
- USB Connectivity and login: login to the system and have any unit load your defaults simply by inserting your USB drive
- Maximum gradient range up to 29°C

Cat. No	Description	List Price	Promo Price
15690245	Alpha Cyclers 2 with two gradient 96 well block	7969,00	6666,46
15680245	Alpha Cyclers 2 with two gradient 384 well block	7969,00	7172,10
15670245	Alpha Cyclers 2 with one 96 and one 384 well gradient blocks	7969,00	6887,60

Arcis Sample Prep Kit

Our technology allows fast and convenient DNA sample preparation for analysis and identification. The complete, ready to use system enables you to go from sample to amplifiable DNA in under three minutes. The sample prep system works with the Delta Seek reagents to make sample prep, analysis and quantification simple, accurate and fast.

- Simple two-step process
- No instrumentation required
- DNA stable for two weeks
- Shipped and stored at ambient temperature

GE Healthcare

GE Healthcare Äkta Start Chromatography System

Easy-to-use chromatography system that automates manual purification procedures. The GE Healthcare Äkta Start Chromatography System is a standalone device supplied with accessories and full user documentation.

- Easily purify your tagged proteins, antibodies, etc
- Gain insights from real-time monitoring
- Evaluate and share your purification results
- Fraction collector and UNICORN start software are optional modules

Cat. No	Description	Flow Rate	List Price	Promo Price
12079310	Äkta Start Chromatography System	0.5 to 5mL/min.	8388,00	7381,44

fisherbrand

Vertical Twin Gel Systems, Verti-Gel Mini

With an injection moulded construction the Verti-Gel Mini is durable and leakproof

- Faster analysis — go from sample loading to image capture in as little as 15 minutes
- Incorporates a sealing system which is compatible with all major types of 80mm x 100mm and 100mm x 100mm precast gels
- Minimise handling of hazardous chemicals when used with E-Gel precast gel cassettes

Cat. No	Description	List Price	Promo Price
11843293	Verti-Gel Mini complete dual PAGE system, sliding clamps, 100mm x 100mm, caster, 2 x plain glass plates, with 1mm spacers, 2 glass plates, 2 x 12 sample combs (1mm)	387,10	326,23
11883293	Verti-Gel Mini system with modules for electrophoresis and electroblotting	575,60	502,67
11893293	Verti-Gel Mini precast dual PAGE System with sliding clamps, no accessories for precast gels	293,90	247,16

fisherbrand

Vertical Twin Gel Systems, Verti-Gel Maxi

- Gel casting and running utilise the same insert, no transfer of glass plates during gel casting is necessary
- Sliding clamps allowing very rapid set up of both hand cast and precast gels
- Ultra soft silicone seals and pressure bars which surround the glass plates guarantee leak proof gel casting
- 2mm thick glass plates prevent breakage and have bonded spacers for convenience
- Accessory electroblotting and tube gel modules are available which use the same outer tank and lid
- Injection moulded construction, durable and leak proof cassettes
- Low requisite buffer volumes
- Runs up to two gels

Cat. No	Description	List Price	Promo Price
12623546	Verti-Gel Maxi two-gel system for electrophoresis	753,80	635,31

fisherbrand

Power Supply, Mini 300V Plus

The Mini 300V Plus offers good performance at an affordable price. With maximum constant current output of 400mA and constant voltage up to 300V, the Mini 300V Plus is capable of running all Fisherbrand horizontal Sub-Gel systems and vertical Verti-Gel PAGE mini gel systems, either on a continuous run or on a timed setting up to 999 minutes. The Mini 300V user-friendly interface with a clear LED display is easily adjustable in 1V and 1mA increments making it perfect for separations where precise settings are required. It has an ultra compact footprint and two pairs of parallel power terminals allow electrophoresis units to be run simultaneously. With alarm function and wipe-clean polycarbonate housing.

Cat. No	Description	List Price	Promo Price
12643546	Power supply Mini 300V Plus	285,70	243,47

Savant™ SpeedVac™ Integrated Vacuum Concentrator Systems and Kits

- Plug and play installation: Includes a concentrator, oil-free vacuum pump and cold trap all integrated in one unit. No tubing connections needed.
- Intuitive and user friendly program digital display which allows use of three preset programs and ability to create three customisable programs to set heat, run time, ramp rate and vacuum level for efficient operation.
- Wide variety of rotors to support sample format from microtubes, vials and microplates to 250mL flasks
- Audible alarm to alert user when operation is finished
- Oil-free vacuum pump is virtually maintenance free
- PTFE coated chamber protects the chamber from corrosion, while making cleaning easy
- Faster sample drying provided with radiant cover
- Vacuum ramping and pressure controls eliminate sample bumping to maintain sample integrity
- Reduced length vapour path from concentrator to refrigerated vapour trap accelerates evaporation
- Rotors fit a wide variety of sample formats such as tubes, flasks, and shallow-well and deep-well microplates

Cell Culture & Analysis

fisherbrand

Fisherbrand™ Aspiration System

- Superior chemical resistant diaphragm pump with long service life
- Automatic flow-stop when 4L receiver is full
- Hydrophobic filter (diameter 55mm, min. pore size 0.22µm) for bacteria and viruses
- Rapid action coupling hose connectors with automatic isolation valves
- Vacuum regulator and built-in vacuum gauge provide fine control for delicate cultures

Cat. No	Description	Includes	List Price	Promo Price
15348191	Aspiration System Advantage	Schuko plug, HandVac basic pipettor, 8-channel adapter for disposable tips, single channel adapter for disposable tips, rubber adapter for pasteur pipettes, operation manual	2013,73	1356,04
15567479	Aspiration System Basic	4L Polypropylene autoclavable receiver jar with automatic flow stop, 5mm ID vacuum hose for connection to your own pipettor, in-line hydrophobic filter, rapid action coupling hose connectors with automatic isolations valves	1130,92	975,19

thermoscientific

Cell Locker™ Chamber

Protected chambers for your most sensitive cells

- Each individual Cell Locker Chamber is effectively a quarantine chamber
- Dual 0.2µm membrane filters permit air circulation but exclude microbial contaminants
- The replaceable 0.2µm membrane filter is hydrophobic, oleophobic, resistant to organic solvents and tested for biosafety and low cytotoxicity
- Independent 3rd party tests validate protection against circulating microorganisms (when used as directed)

Cat. No	Description	Capacity	List Price	Promo Price
15894285	Cell Locker Chamber with copper tray	9 each T-75 cell culture flasks, 20 each 6-well plates, or 24 each 96-well plates	810,00	641,15
15864285	Cell Locker Chamber with stainless steel tray	9 each T-75 cell culture flasks, 20 each 6-well plates, or 24 each 96-well plates	800,00	633,24

Essentials

*fisher*brand

Fisherbrand™ Traceable™ Flashing LED Big-Digit Dual Channel Timer

Times two different activities simultaneously

- Time each channel counts separately: 99hr. 59min. 59sec. down to 1sec.
- Each channel has a distinct alarm and visual indicator when zero is reached
- Green light flashes during countdown; red after zero is reached and alarm is sounding
- Audible alarms have three settings: high, low and muted (silent)
- Alarm may be turned off or silences automatically after one minute
- For repetitive timing, microcomputer chip memory permits two countdown times
- For normal timing, memory recalls last countdown time set
- Magnetic back, flip-open easel and opening for lanyard for easy placement of timer
- Accuracy: 0.01%
- Resolution: 1sec.

Thermo Scientific™ Barnstead™ GenPure™ Pro Water Purification System

- GenPure Pro provides Type 1/ultra pure water
- Flexible dispenser offers a 60cm radius for filling of larger vessels
- Volumetric dispensing gives control from 0,01 to 65L with an accuracy of <0.5%
- Aquastop quick connections on cartridges ensures speedy cartridge replacement
- Validated 0,2µm final filter can be sterile up to five times
- Dual wavelength UV lamp (selected models only) reduces organic compounds to ultra-low levels
- Internal ultrafilter (selected models only) is flushed automatically giving a two year lifetime

Water Purification Systems Smart2Pure™

- Tap to Type 1 water purification system
- Easy to replace cartridges
- Variable flow rate
- Tilting display
- Type II water also produced in tank
- Includes a further RO membrane with integrated pre-treatment, ultrapure polisher cartridge and sterile 0,2µm filter for free

Cat. No	Description	List Price	Promo Price
13237449	Smart2Pure™ 6L/hr, with UV oxidation, ultrafiltration membrane and 6L integrated tank	6297,00	4778,79
