ABOUT TEXWIPE

Texwipe's commitment to innovation, leadership and quality in cleanroom consumable products spans for more than fifty-five years. We invest in technology to respond to our customers' evolving needs in contamination control.

Texwipe's Core Values are:

Innovation

– Texwipe pioneers the latest technologies to provide innovation in contamination control products and processes.

Quality

– Texwipe product quality is maintained by the most advanced testing and quality control standards in the industry.

Technology Leadership

– Texwipe leads our industry in testing metrology, methods and processes to reduce contamination.

Throughout Texwipe's global operations, we support our customers with products designed to exceed the requirements for cleanroom consumable products. Our highly professional team will help you select and develop products for any critical environment application.

▶ *Watch a video about Texwipe products here.*

From floor to ceiling & every place in between.

Continuing in the same tradition as our renowned cleanroom wipers and other popular products, the Texwipe Cleanroom Mop line was engineered to meet strict contamination control needs for cleanrooms areas, both large and small.

Mops for every place.

We design our products to reach contamination in both large and small areas, and every place in between. No matter the application, Texwipe's line offers a mop, from floors to ceilings to wring-bucket systems to isolator-type applications and beyond.

Custom fit.

Tailor your Texwipe Mop System to your need by selecting from our wide range of genuine Texwipe mop covers, including microdenier and sterile options. Don't forget to add on accessories and replacement parts such as an extension handle and pads.

AlphaMop™ The Big Clean

Designed for easy cover changes, this large flat mop is ideal for cleaning surfaces such as ceilings, floors and walls. The padded head allows for a consistent contact with different surfaces.

Texwipe® AlphaMop™ features a large 15" x 8" (38 cm x 20 cm) thermoplastic mop head, 60" (1.5 m) fiberglass handle, pad and fastening pins.

- Quick-change system allows the user to replace covers / pads frequently, adhering to strict cleaning protocols.

- The polyester pad assures the mop cover to conform to surfaces for consistent cleaning.

- Low profile, swivel head with lightweight handles enables easier cleaning of floors, walls, ceilings and hard-to-reach areas. Available in standard and autoclave safe models.

# Mini AlphaMop™ / Isolator Cleaning Tool

Specially engineered to work with isolators and other small areas, this easy-to-maneuver tool offers lightweight, one-hand operation. With a low-profile, swivel head, the Isolator Cleaning Tool gets into hard-to-reach places.

Engineered for quick cover changes during operation, the padded head allows for consistent contact across different surfaces without losing cleaning power. The rounded edges clean the isolator corners and prevent scratches or damage to surfaces.

- Low profile, swivel head with 7" x 4" (18 cm x 10 cm) thermoplastic mop head, pads and fasteners

- TX7101 offers two handles at 12" (30.4 cm) and 18" (45 cm) fixed lengths

- Autoclave safe

SUSTAINABLE PRODUCT

BetaMop™ Wring in the Clean

Optimized for compatibility with both string and strip mop heads, this cleanroom mop features a quick opening clamp for an easy head refill change. BetaMop™ hardware is designed for ease of use with Texwipe Tubular String or Strip head refills and integrates with other head refills as well.

Ideal for use with Texwipe Seamless Stainless Steel round buckets and Integrated Dual Bucket System and can also be used with other wring-bucket systems.

- Available in white fiberglass (TX7106 or TX7125)

- Corrosion-resistant construction

- TX7106 includes one BetaMop™ Polyester String (TX716R) refill

- Autoclave safe

- To complete your mopping system, a variety of hardware, buckets, mop head refills, and sterile options are available

ClipperMop™ Mop with Your Favorite Wipe

ClipperMop™ System is a patented flat mopping product that uses standard Texwipe cleanroom wipes versus traditional covers. This revolutionary system permits the introduction of only one cleaning textile product into the cleanroom and works with any pre-wetted, dry, or sterile wiper.

Create your ideal mopping system by choosing any of Texwipe's 9" x 9" (23 cm x 23 cm) or 12" x 12" (31 cm x 31 cm) wipers.

- Flat, swivel head for getting into hard-to-reach and tight spaces

- Polyester pads to ensure the wiper conforms to the surface

- Hardware features swiveling mop head, clips, polyester pad and fiberglass telescoping handle – 2'5" to 4'5" (0.75 m x 1.3 m)

- Four removable tethered clips for holding wiper to the mop head and plastic clips allow quick loading and removal

- Available in 2 sizes: 7" x 4" (18 cm x 10 cm) or 11" x 4" (28 cm x 10 cm)

Bucket List

Texwipe carries a complete selection of buckets to meet every mop style, application and protocol for your cleanroom and critical areas. Ranging from rectangular buckets for flat mops to round buckets for string mops to an integrated bucket/cart model we have the style you need.

We also offer a variety of accessories to make your mopping easier including a Stainless Steel cart, designed to work with rectangular and round buckets; wringers; and sterile bucket liners.

- Choose from Stainless Steel or Polypropylene

- Seamless design of our round Stainless Steel buckets reduces contamination

- Solution fill marks (on most models) aid with dilution control

- Cart extender easily creates a 3-bucket system

- Autoclave safe
